Business Opportunities Management Consulting Congratulates Founders of Node40

North Greenbush, NY – May 1, 2018: Business Opportunities Management Consulting congratulates Perry Woodin and Sean Ryan, founders of Albany-based Node40 on the recent acquisition of their business by HashChain Technology (OTC: HSSHF) (TSXV: KASH) in a transaction valued at \$14 million.

Node40 was founded by Woodin and Ryan in 2015 to host blockchain nodes, the computer infrastructure that supports the digital currency market and blockchain technology. More recently, the firm expanded into offering accounting services designed specifically for the digital currency market. As part of the acquisition, Woodin and Ryan joined HashChain Technology as Chief Strategy Officer and Chief Technology Officer, respectively.

Business Opportunities previously assisted Node40, a client since 2015, with securing growth capital through the Capital Region Chamber of Commerce's Technology Acceleration Fund. "Node40 has made itself a leader in the blockchain technology field," observed Business Opportunities principal Brian Zweig. "It has been great working with Perry and Sean, and to see the rapid success that they have achieved growing their business here in the Tech Valley region," Zweig added.

About Business Opportunities Management Consulting:

Since 1998, Business Opportunities Management Consulting has been working with businesses in technology, manufacturing, services and retail sectors by helping them with developing and implementing business plans; securing funding for expansion (including debt, equity and grant funding); developing new products and markets, including international distribution; and estimating economic impacts. More information is available at BusinessOp.com.
